How They Catch Rats in Vallejo

From the Vallejo Chronicle

new interest has been established in Vallejo-that of rat-catching. s participated in by constables, sa-loon keepers, news and cigar dealers, and the usual small boy. The ordi-nary requisites are a chair, a cool spot nary requisites are a chair, a cool spot in front of a saloon at a rat known rendezvous, a common fish line and a bait of cheese. Bait your hook, drop it through a crack in the sidewalk and await a mibble, which is soon vigorously given, a pull on the line, a squeat from Mr. Rat, and the victim of the hook is jerked through the sidewalk and dispatched with a club. On account of the novelty of the recreation large crowds congregate around tion large crowds congregate around the spot. One of good-looking officers has given up fishing for offenders of the common law and taken to fishing for rats. Four of the cheese loving quadrupeds were caught in a short time the other day.

Battling Lions,

From the San Diego Union. A San Pasquel boy recently saw a terrific battle between two immense California lions. Standing on their hind legs as they came together with a shock like two maddened gladiators, they appeared to be taller than an ordinary man, and with teeth and claws they tore each other until it seemed both must be killed on the spot After fighting in this manner fifteen minutes or more, one of them suddenly left his enemy in full possession of the blood-stained field.

A 2: 8 Gait.

From the Albany Evening Times. Maud S. is putting in some exceedingly fine work at Rochester. She yesterday trotted a quarter of a mile in thirty-two seconds. If she could keep up that gait, she could put a mile behind her in 2:08. But this seems to be a figure too low for any

living troiter to get down to. She Thought it was a Snake.

From the Clinton and Shiawasse (Mich.)

At Bay City, Tuesday, Officer Hem-street's little 2-year-old daughter took ail the "tick" out of her mother's gold watch. She mistook it for a snake, the chain being at tached, and pounded the snake's head till she killed it.

make it appear that the GAZETTE has retracted something or in some way gotten into the same boat with it, cause we said yesterday that we had had taken money for himself when the bank failed. We have retracted nothing, and were not even asked to retract anything. In all this time we have not indulged in either condemnation or whitewash, but have given the plain unvarnished truth, and allowed the people to be the judge. We have not called any hard names or tried to make any hard feelings, and we are willing to have the Journal fatten on any inconsistencies it may find. It seems to have no conception of a straight and direct course in a paper, one that is not pushed to extrees when it opposes, or to "taffy" when it endorses a man or a principle. We certainly could not prevent Mr. Kinkead from withdrawing his suit it he chose, and we certainly would not be justified in blackguarding him for

A Project for Exterminating the Snakes on Goat Island

A crazy man now sojourning at Lake Tahoe has a curious project for exterminating the rattlesnakes on Goat Island, in Pyramid Lake. The island, as is well known, approaches the shape of a perfect pyramid. His idea is to take three large casks of kerosene to the apex of the island, and there stave them in. The oil would naturally flow down on all sides alike, drenching the whole sur-face. A match would then be ap-plied at the water's edge and the whole island would instantly be enveloped in flames. No rattlesnake, nor any other living thing, could possibly escape. The spectacle of the great insular pyramid, all on fire, the conflagration illuminating the whole lake and the mountains which shut it in, would be truly grand. The crazy man thinks that a collection taken up on the shore would defray the expenses.

New Road Between Alturas and Reno

The Modoc Independent says: It is a fact beyond cavil that the road between Alturas and Reno will be a sucfact as our roads now exist, that no hauling or teaming can be done earlier than the first of June or later than the first of November. By the pro-posed new road from Alturas to Reno, freight can be hauled at any and all ming in a precautous of the proposed in the customers. The goods it sells in the customers. An Excitement at Sierraville.

"I'm coming to kill you," was the essage sent by a Loyalton Chinaman to "Louis," a countryman of his at Sierraville. This proved to be no idle threat, for last Sunday the sender of the mes-sage arrived at Sierraville, and fired upon Louis at sight. He fired three shots without effect, and then struck out for the tules. A young blacksmith gave chase, shot the fugitive in the leg, and finally captured him. The murderous Chinaman is now in charge of the authorities.

The Moonlight Party.

There might have been more moon light at the dance on the Riverside A very pleasant little party gathered there and had a good time. The night was cool and quite a breeze was blowing. This made it a little unpleasant for the "wall flowers" which were not well propped. All got home safely.

FARMERS' FRIENDS.

Two Small But Mortal Enemies to th Grasshoppers.

During Professor Lemmon's stay n Reno, he found a peculiar fly somewhat numerous on the meadows. The ways of this fly the Professor had studied in Sierra valley, and he had ascertained the insect to be one of the most formidable enemies of the destructive locusts, or grasshoppers. The fly has a bumble-beeish look, but is small. It has what appears to be a stiff black hair projecting from its head. This is a tube through which it sucks from flowers the honey on which it lives. The Professor thinks the insect is a species of pompilus. It was unknown to Professor Riley, Chief of the Government Entomo logical Commission, until Professo Lemmon sent him a specimen.

During the greater part of the fly's brief existence, it appears to entirely ignore grasshoppers. But when it feels that its days are numbered, it bethinks itself of posterity, and looks around for a good place to lay some eggs. The larva of the pompilus is an egg-eater, very fond of fresh eggs. With a view to humor this taste of its offspring, the fly seeks a place where hoppers are laying egge, and deposits its own with theirs, in a neigh-borly sort of a way. The young pompilus is at first a little white grub, pompilus is at first a little white grub which insinuates itself into the grass hopper eggs and devours their substance. A single grub will devour a whole nest of eggs, and probably several nests. The grub in time be-comes a fly, and in its turn lays eggs.

Professor Lemmon was pleased to observe that the little red mite, another enemy of the grasshopper, is at work in this section. This red mite is a small insect which fastens itself upon the hopper and sucks its blood. One of these mites (not so big as a pin's head) upon a hopper will either kill it, or so much impair the hopper's vitality that it becomes unfitted for active service and cannot join foraging expeditions.

The well known trotter Maggie C. ow at the race track in training for the fall races, is looking remarkably well. A good performance may be expected of her when the fair comes on. Riding by her box yesterday a visitor to the track was struck by the beauty of her head, protruding from an open doorway. She has speaking eyes, open doorway. She has speaking eyes, and an expression of great docility and intelligence. Good breeding is just as plainly evident in the equine as in the human countenance. Maggie has a particularly well-bred look, and altogether a head worth painting.

AT THE RACE TRACK.

The Horses in Training for the Fall

The race track is now in pretty good order, and quite a number of horses are in training on the Fair grounds. A GAZETTE reporter visited the track last evening, and made out the following list of horses already there.

J. J. Nichols of Virginia has several horses in charge of James Kenny. One is a handsome black mare for the first time in training. The others are g. g. MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment with often be found, and some small particles of albamen will appear or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

REPUBLICAN PLATFORM.

Following is the text of the resolutions adopted by the Republican National Conven-tion on Saturday, June 5, 1880:

adopted by the Republican National Convention on Saturday, June 5, 1880:

Republican rule has rectored upon a solid basis payment in coin for all the national obligations, and has given us a currency absolutely good said legal, and equal in every part of our extended country. It has lifted the credit of the nation from the point where six per cent bonds solid at 85, to that where four per cent bonds are eagerly sought at a premium. Inder its administration railways have increased from \$1,000 miles in 1800 to more than \$2,000 miles in 1800 to gitted that it is not seen that our imports in 1800, were \$25,000,000 less than our imports in 1800, were \$25,000,000 more than our imports in 1800. Without resorting to loans it has, since the war closed, defrayed the ordinary expenses of government, besides the accruing interest on the public debt, and disbursed annually more than \$30,000,000 for solidiers' pensions. It has paid \$880,000,000 for the public debt, and by refunding the balance at lower rates, has reduced the annual interest charge from nearly \$151,000,000 to less than \$29,000,000. All the industries of the sountry have revived; labor is in demand; wages have increased, and throughout the entire country there is evidence of a coming prosperity greater than we have ever enjoyed. Upon this record the Kepublican party asks for the continued confidence and support of the people, and this convention submits for their approval the following statements of the principles and purposes which will continue to guide and inspire its efforts:

ENUMERATION OF FRINCIPLES.

ENUMERATION OF PRINCIPLES.

Pirst. We affirm that the work of the last twenty-one years has been zuch as to commend liself to the favor of the nation, and that the fruits of the costly victories which we have achieved through immense difficulties should be preserved. That the peace regained should be cherished. That the dissevered Union, now happily restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations. I hat the order established and the credit acquired should be paid. That the pensions promised should be extinguished by the full payment of every dollar thereof. That the reviving industries should be further promoted, and that the commerce already so great should be steadily encouraged.

Second The Constitution of the United States it the supreme law, and not a mere compact. Out of the confederated States it made a sovereign nation. Some powers are denied to the nation, while others are retained by the States; but the boundary between the powers delegated and those reserved is to be determined by national and not by State tri-libration. Third. The work of popular education is ENUMERATION OF PRINCIPLES.

bunals.

Third. The work of popular education is one left to the care of the several. States, but it is the duty of the national government to aid that work to the extent of its constitutional, bhitty. The intelligence of the nation is but the aggregate of the intelligence in the reversi states, and the destiny of the nation must be quited not by the genius of any one state, but by the average genius of all.

Non-sectalizant schools.

Fourth. The constitution wisely forbids.

Fourth. The coust tution wisely forbids congress to make any laws respecting an establishment or religion, but it is fulle to hope that the nation can be protected against the influence of sectarianism whose each State is caposed to its particular domination. We therefore recommend that the constitution sees a smonded as to key some profibrition upon the negligible of the particular domination. he appropriation of public lands to the sup-

on the legislature of each state, and to forbid
the appropriation of public lands to the support of rectarian a hools.

Titth, We readran the belief avowed in
Sig. that the duties levied for the purpose of
recents should be so discriminate as to is or
American lands. That no further grant of the
public domain should be made to any railroad or other corporation. That slavery having perishes in the States, its twin barbarity,
polygamy, must doe in the Territori's. That
everywhere the protection accorded to a citzens of American birth must be secured to eitzens of American acoption. That it is the
daily of congress to develop and improve our
water-courses and harnors, but we misst that
arither aghe does to private persons or corporations must ceare. That the obligations to
the men who preserved its integrity he the
day of battle are undiminished by the lapse of
acteen years since their final victory. Their
perpetual honor is and shall lorever be the
grateful privilegs and the sacred duty of the
American people.

The CHINESE PLANK

Sixth. Since the authority to regulate Im-

Sixth, Since the authority to regulate imagration and into-course between the United states and foreign nations rests with the Congress of the United States and the treaty-making powers, that the Republican party, regarding the surrestricted immigration of the United states and after of grave concernment and under the exercise of both these powers would sink and restrict that immigration by the enactment of such just, humane and reasonate laws and treaties as will produce that result.

Eighth. We charge upon the Democratic party the kaoitnal sacraite of justice and patrotism-to a supreme and insavable last for office and patronage; that to obtain possession of the national and state governments and of the control of place and position, they have obstructed all the efforts to preserve the parity and conserve the freedom of saffage; have labored to unseat lawfully electared members of congress, to secure at all hezeron members of congress, to secure at all hezerons. have devised fraudulent certificates and returns; have aborded to use at lawfully elected members of codiness, to secure at all lazards the vote of the majority of states in the House of Representatives; have endeavored to occupy by ferce and fraud piaces of trust given to others by the people of Maine, and rescued by the courage and action of Maine's patriotic sons; have by methods victous in principal and ty-analtest in practice, attached particular sons; have by methods victous in principal and ty-analtest in appropriation billier, have crashed the rights of individuals, and vinaitated the principles and sought the favor of robellion ag inst the nation, and have endeavored to obliterate the sacred memories of the way and to overcome its luestimable and results—freedom and individual equality—free affirm it to be the duty and purpose of the teppolican party to use all the legitimate means of this Union to secure the percet harmony which may be practicable, and we stimult to the practical, sensible people of the Union of the lastical to say whether it would not be dangerous to the best interests of our cannity at this time to surrender the administration of the national government to a just by which seeks to overthrow the existing failed under which we are so pro-perous, and thus bring distinction and confusion where there is now order, confidence and hops.

publican State Convention:

Publican State Convention:

Resolved, That the platform of principles adopted by the National Republican Convention, at Chicago June last, deserves and receives the approval and hearty indorsement of all the Republicans of Nevada.

Resolved, That the hordes of Chinese that are coming in upon our shores to eat out our substance are destroying our country, inpovershing our mines, mining and laborers, debauching our youth, and making both men and women lower in the scale of humanity. This evil must and shall be stopped, and to this end we pledge the entire strength of the Republican party.

In the language of our great leader, we regard the immigration of Asiatics to the United states as little less than a service invasion. Should the Commissioners now in regotation with the Chinese Government fail to secure by the first of next January such mediacation of the Burling ame Treaty as will practically put an end to the inflax of Chinese to this ountry, we demand that the treaty then be pr. imply annufied, and such lawer acced as wid relieve us at once and forever of the Ariatic sconings now menacing the well-being of the Kepublican party, which, in spice of every opposition on the part of the Demacracy, has led to the resurspition of specif payments, the relief of our national credit to a beight never before known, and to the restoration of its former position by the side of gold; and for the purpose of attaining that end we hod it to be the duity of the senior of the confirency, and the consider regal tender currency, at the cost of coinsee, and for the benefit of the producer, the integrity from the loss attending the subjugent to and sale of silver bullion in toreign markets.

As mining for the precious metals is the leading industry from the loss attending the subjugent to and sale of silver bullion in toreign markets.

as mining for the precions metals is the As mining for the precious metals is the leading industry of Nevada, we are indestibly opposed to the oil reported by the Committee ou mines and mining, and now before the House of Repre entaitives, prohibiting the following of insure veins or deposits beyond the vertical lines of seriace bounds ries; and we urge our Representatives in both flouses of congress to committee their effects for its defeat. Such a restriction would work disaster to the inbors of the prospector, and seriously retard the development of the mining riches of the West, and we confully indose the action of our Representative, the iton, K. M. Daggett, in his behalf.

RESOLVED, That the Republican party claims it to be the right and only of State and Territorial Legislatures to regulate and restrict the energies of refinous exclusively within their respective boundaries, and that it is no less the constitutional right than the positive duty of Congress to regalace the tariffs and restrict the charges of later-State and resources. That while we congratulate the contribution of the properties of the country on the approach of country on the approach of country on the approach of the country of the properties of the country of the approach of the country of
